Monta inglese è un termine utilizzato per descrivere una forma di equitazione diffusa in tutto il mondo, frutto di una lunga ed affascinante tradizione equestre che si è sviluppata nei secoli fino ad oggi. I nostri stivali OXFORD spiccano per comodità e vestibilità ma soprattutto per l'armonia e lo stile che aggiungono all'abbigliamento del cavaliere. *English mounting is a word used to describe a type of horseback riding worldwide popular, result of a long and fascinating equestrian tradition which developed over centuries to today. Our OXFORD boots excel for their comfort and wearability but most of all for the harmony and the style they add to the rider's attire. Soft and elegant lines which harmonize your leg and give self-assurance to your foot, specifically selected materials to guarantee perspiration and optimal temperature conditions, these and other features characterize our English mounting boot collection.*
